PROFESSIONAL SUMMARY

Mobile and Full-Stack Developer with experience building production-ready applications using React Native, Expo, Next.js, TypeScript, Laravel, Django, and Firebase. Skilled in developing scalable REST APIs, cross-platform mobile apps, authentication systems, geolocation services, subscription architectures, and AI-powered features. Strong portfolio of client and personal projects demonstrating end-to-end software delivery from mobile UI to backend APIs and cloud deployment.

TECHNICAL SKILLS

Mobile: React Native, Expo, Expo Router, React Navigation, EAS Build, push notifications, maps & geolocation

Frontend: React, Next.js, TypeScript, Tailwind CSS, Vite, React Hook Form, Radix UI

Backend: Laravel, Django REST Framework, Node.js, REST APIs, JWT auth, Celery, Prisma, Drizzle ORM

Cloud & Data: Firebase (Auth, Firestore), PostgreSQL, Neon, Cloudinary, Vercel, Render

Integrations: Google Maps, PayPal, Google/Apple Sign-In, 2FA, Genkit/LLM APIs, Nodemailer, PDF generation

Practices: Role-based access control, admin dashboards, API design, Git/GitHub, responsive UI

SELECTED PROJECTS

Production and client projects. Private repositories and walkthroughs available during technical interviews.

TrackWise (Trakwyze) - AI Fitness Mobile App | www.trakwyze.com

React Native (Expo 54) | Next.js 15 | Firebase | Genkit/Groq | TypeScript

- Built cross-platform mobile fitness app with AI-powered workout and meal recommendations.
- Integrated geolocation for location-aware nutrition planning and health coaching chat.
- Implemented secure Firebase authentication, Expo secure storage, and Next.js API integration.
- Designed charts, notifications, and premium subscription-ready feature architecture.

ArtizanSquare - Marketplace (Web + Mobile + API) | artizansquare.com

Expo | React | Django REST | Firebase | Google Maps | JWT

- Delivered three-tier product: Expo mobile app, React web client, and Django API on Render.
- Implemented Google/Apple sign-in, artisan discovery, proposals, messaging, and reviews.
- Built token refresh flows, Celery async jobs, and Cloudinary media handling.

TRW Capital Finance - Fintech Investment Platform

Next.js 15 | TypeScript | Firebase | Genkit | Crypto integrations

- Developed investment platform with crypto deposits, copy trading, referrals, and KYC workflows.
- Built admin dashboards for portfolio management, ROI tooling, and role-based access.
- Integrated CoinMarketCap API and secure transaction workflows.

CampusConnect Pro - Campus Management System

Next.js 15 | React 19 | TypeScript | Firebase | Genkit

- Built full campus ERP: enrollments, grades, fees, library, attendance, and announcements.
- Implemented Firestore RBAC with separate admin and student dashboards.
- Added AI-powered username suggestions and real-time analytics with Recharts.

SwiftSend - Logistics & Shipment Tracking

Next.js 15 | Firebase | Google Maps | TypeScript

- Created logistics platform with live shipment tracking, invoices, and dual customer/admin portals.

- Implemented public tracking by ID, route visualization, and haversine distance calculations.

StyleAI - AI Writing Assistant | style-ai-liard.vercel.app

Next.js 14 | Genkit | Neon Postgres | Drizzle | Auth.js

- Built AI writing tool with tone control, style profiles, and DOCX/PDF import/export.
- Integrated Google AI and Mistral via Genkit with session analytics dashboard.

Online Banking Platform - Laravel Fintech Demo

Laravel 12 | PHP 8.2 | PostgreSQL | 2FA | DomPDF

- Developed banking flows: accounts, transfers, admin dashboard, and PDF statements.
- Implemented Google Authenticator 2FA, transfer review workflow, and Pest test suite.

Jhavis Couture - Fashion E-Commerce (Django) | jhavis.com

Django 5 | DRF | PostgreSQL | Cloudinary | i18n

- Built e-commerce platform with lister portal, order management, and superadmin CMS.
- Integrated ZeptoMail notifications and multi-language support.

PROFESSIONAL EXPERIENCE

Intermediate Web Developer

Craft IT - Port Harcourt | Aug 2018 - Jun 2020

- Developed and maintained responsive websites and CMS solutions for clients.
- Built scalable WordPress/Joomla sites; used Git/GitHub for version control and delivery.
- Assisted in project planning, estimation, and client-facing technical delivery.

Technical Officer (CBT Infrastructure & Examination Systems)

Joint Admissions and Matriculation Board (JAMB) - Contract | Contract

- Conducted pre-examination technical audits at accredited CBT centres nationwide.
- Verified 250+ workstations per centre including biometric and CCTV systems.
- Delivered real-time technical support during national exams with zero critical downtime.

IT Support Assistant

Energy Commission of Nigeria - Abuja, FCT | Feb 2024 - Feb 2025

- Maintained desktops, laptops, and network devices across departments.
- Diagnosed hardware, software, and connectivity issues; reduced downtime with IT teams.

EDUCATION

B.Agr. Crop and Soil Science - University of Port Harcourt (2023)

National Youth Service Corps (NYSC) - 2025

CERTIFICATIONS

- Web Development Certification - SoloLearn
- Huawei HCIA: Datacom | Network Security | Transmission
